Subject: NPDES possible violation for the Freedom Industries in Charleston, WV
Storm Water Pollution Prevention Plan for Etowah River Terminal LLC.pdf

Hi Michelle,

I was an OSC that was out at this facility during the weekend and we know that WV DEP has issued a NOV. I have attached the facility's storm water pollution prevention plan. The freedom industries has the NPDES permit that was transferred to them from the previous owner (Pennzoil). The state permit is a multi-sector industrial - WVG610920 and was last renewed on 11/07/2009, I don't have the NPDES permit number and I am not familiar with the program that much. I wanted to pass along the information. The enforcement contacts from WV DEP at the site have been Cindy Musser (304)488-5300 and Brad Wright (304)541-4237. Dennis Matlock and Dominic Ventura are the two OSCs that are still currently on site at the facility.

Thank you,

Melissa
